Seine River School Division

May 12, 2021

Seine River School Division is continuing to solidify the leadership positions within our schools. Ensuring that strong student learning and well-being are key components of our school teams as we prepare for the transition to the new education system being developed in the province of Manitoba. We are proud of all of our students, staff and communities for their support during this pandemic and are pleased to make the following permanent appointments of leadership positions:

**Ste. Anne Collegiate Vice-Principal/Vocational Instructional Support: Mr. Randy Engel**

Randy is currently the principal of Dawson Trail School and is a passionate learner with an emphasis on experiential learning. He has previously been a vice-principal, high school teacher and has experience as an industrial arts teacher. His varied background and innovative thoughts towards developing real life work skills will make him a tremendous asset to the Ste. Anne Community.

**La Salle School Vice-Principal/Middle Years Reading Apprenticeship Co-Teacher: Mr. Jayson Abraham**

Jayson is currently the principal of La Barrière Crossings School and has previous experience as a vice-principal at La Salle School and Dawson Trail School. He is an experienced middle years teacher who understands the importance of building community and continuing to learn as an instructional leader. Jayson will bring a strong element of collaboration to the La Salle School community.

**La Barrière Crossings School/Parc la Salle School Principal: Mrs. Teresa Hampton**

Teresa is currently the principal of Parc la Salle School and brings tremendous knowledge of inclusion, respect for diversity and instructional leadership. As part of the restructuring of the two schools Teresa will lead a team that includes a vice-principal at both La Barrière Crossings School and Parc la Salle. Staff and student learning will continue to be a focus for these two schools, and we feel very fortunate to have her expertise and skills leading the school community.

**Dawson Trail School Principal: Ms. Sandra Meilleur**

Sandra is currently the Superintendent of Pine Creek School Division and is returning from her leave of absence to rejoin Seine River School Division. She has experience as a principal of both Arbogate School, Richer School and has been a math teacher, vice-principal and technology consultant. She has a proven track record of accelerating learning for staff and students and her knowledge and skills will benefit the school community. Inclusion, diversity and academic excellence are areas where Sandra has great strengths.

Seine River School Division is extremely proud of the dedicated and knowledgeable educators that work in our system. We want to wish them much success and rewards in their new roles for September 2021. We are fortunate to have such strong people working within our system. Other administrative appointments will be forthcoming in the coming weeks.
