

POLICY: JJ Student Fees

REGULATION

EXHIBIT:

ASSESSMENT OF STUDENT FEES

The Seine River School Division believes that

All students should have equitable access to learning experiences within and outside the school.

All students must have opportunities to achieve the outcomes of extra-curricular activities without experiencing deterrents to their participation based on the costs of activities or materials required to meet those outcomes.

A school's instructional budget and/or other budgets provided to support student learning should form the primary source(s) of funding for students' educational experiences in the Division.
